

DECI-TEX® T-SERIES

**Thermoformable Fiber
Sound Absorption.**

The DECI-TEX® platform is a fiber-based, acoustic and thermal technology that yields a broad range of products, all being tunable and engineered for customer specific applications.

DECI-TEX® T-SERIES

Highly Compacted, Fiber-Based Nonwoven Technology.

DECI-TEX® T-Series is a thermoformable fiber-based solution for acoustic and thermal insulation with superior performance. This lightweight material gives shape to the acoustic solution through thermoforming to a 3D part with a unique combination of tunable acoustic performance, weight saving, and recyclability. Typical applications include acoustic efficient airducts and hush panels.

DECI-TEX® engineered fiber solutions yield high resilience and achieve superior mechanical integrity over other forms of nonwoven insulation.

KEY PRODUCT ATTRIBUTES

Lightweight

Odorless

Water Resistant

UV Resistant

Recyclable

Fire Resistant

Sound Absorption

Recycled Materials

APPLICATIONS

- Air Ducts
- Hush Panels

- Wheel Well Liners
- Rear Door Trim

- Spare Wheel Compartment
- Side Wall Trim
