DECI-TEX®

DECI-TEX® X-SERIES

Horizontally Lapped Fiber for Superior Thermal Performance.

The DECI-TEX® platform is a fiber-based, acoustic and thermal technology that yields a broad range of products, all being tunable and engineered for customer specific applications.

DECI-TEX®

DECI-TEX® X-SERIES

Horizontally Lapped, Thermoformable Fiber-Based Technology.

DECI-TEX® X-Series is a horizontally lapped, thermoformable fiber-based material for acoustic and thermal applications. This flexible material is non-toxic, has excellent resistance to high temperature, and low shrinkage. It also has excellent chemical and biological resistance. DECI-TEX® X-Series is typically used in dry wrapping of structural steel and other heat protection applications in the automotive industry.

DECI-TEX® engineered fiber solutions yield high resilience and achieve superior mechanical integrity over other forms of nonwoven insulation.

KEY PRODUCT ATTRIBUTES

- Lightweight
- UV Resistant
- Sound Absorption
- Odorless
- Recyclable
- Recycled Materials
- Water Resistant
- Fire Resistant

APPLICATIONS

- Door Panels
- Floor Silencers & Decouplers
- Dashboard Inners & Outers

- Headliners/Insulators
- Trunk Trim/Tailgate Trim
- Engine Compartment Insulator

- Wheel Well Liners
- Hood & Engine Bays
- Console Silencers
